

# ADQ-151

Ideal for control units and benches

## Isolated USB box with I2C, buffered I2C, UART and 4 digital I/Os

### Features

- Controllable via USB2.0 (backwards compatible)
- Isolated against PC
- I2C-Port (5V)
- Buffered I2C for interference-free communication even over longer lines
- 4 digital inputs and outputs (TTL)
- UART interface (RX/TX)
- Signal level: 5V
- Various status LEDs
- All plugs locked or increased retention
- Robust aluminium housing
- Extensive software support

Title	Art.-Nr.	Description
ALLDAQ ADQ-151	163383	USB2.0 (isolated) to I2C, buffered I2C, UART and 4 digital I/O
ALLDAQ ADQ-151	163384	without housing
